

Deborah Knutson, Director

I am a certified teacher with a Bachelor in Science degree in Physics and a Master In Teaching degree from Whitworth College.

As a dedicated educator for over 10 years, I have effectively reached students of all ages with different learning needs. Because I personally have faced “learning difficulties”, such as vision and auditory processing disorders and speech impairment, I have developed different approaches toward learning.

My main focus is to provide an alternative for parents and students while maintaining educational excellence in a caring, safe and fun learning environment.

Our learning programs are specifically designed to meet the individual needs of students who struggle with traditional teaching methods or those who need to be challenged academically.

Our students develop effective learning strategies that enable them to build confidence and a stronger educational foundation.

Meeting the Needs of Parents and Students

The Learning Center assists parents and students by individualizing their educational programs through a certified teacher, the Teacher Consultant.

- Official Transcripts through Academy Northwest
- Regular meetings with the Teacher Consultant gives the students active learning opportunities.
- Classes through the Learning Center provide access to specialists in difficult subject areas.
- Exciting and educational field trips provide unique enrichment opportunities.

Family Academy / Academy Northwest

Family Academy is a non-profit educational organization with endorsements through the Washington State Board of Education and the National Private School Accreditation Alliance.

Academy Northwest, an affiliate of Family Academy, is a “school without walls”. Academy Northwest meets the needs of homeschooling families by blending private school with home education.
