

Deborah Knutson, Director

I am a certified teacher with a Bachelor of Science degree in Physics and a Master in Teaching degree from Whitworth College.

As a dedicated educator for over 12 years, I have effectively reached students of all ages with unique learning needs. Because I personally have faced “learning difficulties”, such as vision and auditory processing disorders and a speech impairment, I have developed different approaches toward learning.

My mission is to provide an alternative for parents and students while maintaining educational excellence in a caring, safe and fun learning environment.

Our learning programs are specifically designed to meet the individual needs of students who struggle with traditional teaching methods or those who need to be challenged academically.

Our students develop effective learning strategies that enable them to build confidence and a strong educational foundation.

## We Care

A good education has become a great social concern. Since 2003, Education NW Resources has commitment to give excellent, affordable, and personalized service. Tailored curriculum, flexibility in scheduling, and competitive rates allow our students to learn and flourish in a caring and educational environment.

## Meeting the Needs of Individuals

Choosing the right educational system can be difficult. This responsibility becomes a greater challenge when specific educational needs must be addressed. The team at Education NW Resources has designed specialized programs to address these specific needs. If we do not have the resources to meet those needs, we will do our best to help you find them.
